FOR THE PARENTS

Dear Parents,

Vacations offer middle scholars a brilliant chance to explore the world beyond textbooks. At this age, children grow rapidly when they become active gatherers of good ideas, skills and information. That is the truest form of doing homework!

Instruction for the students:

- Read the newspaper daily together to track current events and build global awareness.
- Have then read school lesson aloud to master perfect pronunciation and crush stage fear.
- Watch English and Hindi news channels together to sharpen listening and thinking skills.
- Flip through old family photo album and share funny, inspiring stories from your childhood.
- Assign daily home task like organizing bookshelves or watering plants to build real- life responsibility.
- Encourage them to start every morning by greeting elders with warmth and respect.
- Beat the heat by swapping heavy, oily food for fresh fruits, crisp salads and lots of water.
- Charge up their daily meals with high protein foods like milk, pulses, soybean, nuts and cheese.
- Set up a daily digital curfew to keep them moving and protect their sleep.
- Give them a small summer budget for their own snake to teach basic money management and math.
- Spend a little time daily revising April and May school text books so they return to school ahead of the class.

Wishing you a productive and enjoyable holiday seasons!

Regards
