FOR THE PARENTS

Dear Parents,

As the summer break begins, your role changes from supervisor to mentor. Summer vacation is a critical bridge for consolidating complex academic concepts and developing advanced self-regulation skills.

We request your support in helping them establish a balanced daily routine that accommodates rigorous self-study, research-based project work, and essential downtime. Please encourage independent research and critical thinking, refraining from direct intervention in their assignments. Your strategic guidance will help them build the maturity, accountability, and academic stamina required for the upcoming session and future competitive challenges.

Thank you for your continued cooperation and support.

Instructions for the students:

1. Systematically review all syllabus topics covered in April and May to secure your foundations.
2. Ensure all subject assignments and practical files strictly adhere to the provided marking schemes.
3. Set weekly micro-deadlines across the break to prevent a last-minute rush and low-quality submissions.
4. Execute all research, data collection, and project work independently to build genuine concept mastery.
5. Use diverse academic resources, case studies, and critical problem-solving to elevate your assignment quality.
6. Focus on innovative presentation and unique insights, ensuring your work is entirely free from plagiarism.
7. Maintain an impeccably neat, structured, and professional format suitable for senior-school board evaluations.
8. Dedicate your free time to exploring career interests, reading advanced literature, or learning new technical skills.
