Section A (Reading)

A1. Read the following passage and then answer the questions that follow:-

A long time ago, when the world was new, the sun married the moon and they lived happily on Earth, in a little cottage near the ocean.

“O, there's nothing to it. We shall build a compound for you,”the Sun said to Ocean.

So, the Sun and the Moon built a very large compound and then they invited the Ocean over to their house for a visit. The Ocean liked it so much that he wanted to stay there. The Sun and the Moon liked the Ocean, and hoped that the cottage would be big enough for all of them. So, they asked the Ocean to come and stay.

In came the Ocean with all his people ,his best friends— whales, dolphins, water birds, fish, porpoises and all the creatures that live in water. Soon the water rose higher and higher in the collage.
