A. READING SECTION

Read the following extract taken from Aesop's Fables and then answer the following questions:-

Long ago, there lived a woodcutter in a small village . He was sincere in his work and very honest but he struggled to make ends meet. His expenses always seem to be more than what he earned. Every day, he set out into the nearby forest to cut trees. He brought the wood back into the village and sold them to a merchant and earned his money. He earned just about enough to make a living, but he was content with his simple living. One day while cutting a tree near a river, his axe slipped out of his hand and fell into the river. The river was deep and fast and the axe soon got swept away out of sight. The woodcutter was distraught. He only had one axe which was now lost! He became very worried. So, he decided to pray to the Goddess for help ,very sincerely. The Goddess appeared in front of him and asked, 'What is the problem, my son?' The woodcutter explained the problem and requested the Goddess to get his axe back.

The Goddess took out a golden axe and asked, 'Is this your axe?' The woodcutter said, 'No.' Then the Goddess took out a silver axe and asked the same question. The woodcutter again replied the same. The Goddess said, 'Take a look, these are very valuable axes, are you sure that they are not your axes?'

The woodcutter said, 'No, they are not mine. They are of no use to me.'

The Goddess smiled and finally took out his iron axe and asked the same question. The woodcutter joyfully exclaimed, 'Yes! This is mine! Thank you!' The Goddess was very impressed with his sincerity and so she gave him his iron axe and also the other two axes as a reward for his honesty.
