English Monthly Revision Assignment (August)
Class 3
Comprehension Passage

Once upon a time, there lived a poor woodcutter in a small village near a forest. Every day, he went to the forest to cut wood and sell it in the market. One day, while cutting a tree near the river, his axe slipped from his hand and fell into the water. The poor man sat on the riverbank and began to weep.

Suddenly, the river goddess appeared. She asked him why he was crying. The woodcutter told her about his lost axe. The goddess went into the water and came out with a golden axe. But the woodcutter refused it, saying it was not his. Then she brought a silver axe, but again he refused. Finally, she brought the iron axe, and the woodcutter joyfully accepted it, saying it was his own. The goddess was pleased with his honesty and gave him all three axes.

The woodcutter returned home happily and lived a better life because of his honesty.

REVISION ASSIGNMENT COMPUTER (2025-26) CLASS 3

Name: _____ **Roll No.:** _____

A. Multiple Choice Questions

1. The brain of the computer is:

a) Monitor   b) CPU   c) Mouse   d) Printer

2. Which of these is software?

a) Mouse   b) Tux Paint   c) Monitor   d) Keyboard

3. Which device shows the output?

a) Keyboard   b) Monitor   c) Mouse   d) Scanner

4. Which tool in Tux Paint is used to add ready-made pictures?

a) Magic Tool   b) Stamp Tool   c) Shapes Tool   d) Text Tool

5. The small pictures on the desktop are called:

a) Icons   b) Files   c) Folders   d) Windows

5. A computer cannot work without our _____.

a) Help   b) instructions   c) labour   d) background

B. Fill in the blanks

1. A _____ is the main processing unit of the computer.

2. _____ is the default name of a blank document in the Word application.

3. The devices used to enter data are called _____.

4. _____ is an example of application software.

5. The _____ tool in Tux Paint is used to write words.

6. A _____ tool in Tux paint is used to store data permanently.

7. _____ Opens a shortcut menu.

8. Pressing the_____button and then releasing it is called click.

9. The _____ tool erases a part of drawing.

C. True / False

1. CPU is an output device. (_____)

2. Software cannot be touched. (_____)

3. The new button is used to start the slide show. (_____)

4. Data is the raw facts and figures. (_____)

5. Quit tool is used to create a new drawing. (_____)

6. Speakers are input devices. (_____)

7. The Magic Tool in Tux Paint is used for magical effects. (_____)

5. Windows is system software. (_____)

D. Short Answer Questions (2 marks each)

1. Write two differences between hardware and software.

_____

_____

_____

2. Name any two input and two output devices.

_____

_____

3. What is the function of the CPU?

_____

_____

_____

4. Write two uses of Computer.

_____

_____

_____

5. How will you create a new drawing in Tux Paint?

_____

6. What do you mean by slide show?

_____

_____

7. Write a short note on the following:

a) Hardware

_____

_____

_____

b) Software

_____

_____

_____

c) Input

_____

_____

_____

d) Output

_____

_____

_____

e) Information

_____

_____

_____

E. Activity Based Questions

1. Draw and label any two input devices and two output devices.

2. Draw the icons :-

a) Open tool

b) Magic tool

c) Undo

d) Redo

e) Stamp

f) Paint

g) Eraser

F. Match the following:

a) Keyboard	Output device
b) Printer	Input device
c) Monitor	To close Tux Paint
d) Mouse	Dustbin of Computer
e) Quit Tool	To select Icons
f) Click	To insert Pendrive
g) USB Port	Input device
h) Page Up key	Type in capital letter
i) Page Down Key	Move one page up

G. Competency Based Questions (Case-study / Application)

Q1. Riya went to the computer lab. She wanted to draw a flower in Tux Paint.

a)Which tool should she use to draw the petals? _____

b) Which tool should she use to fill colors?_____

c) Which tool will she use to add her name below the flower?_____
